Origins

The clan was founded by Altair Popal of Sova. A mage from East Ofir, who while trying to find a way to create artificial Sources to create an army of powerful mages, inadvertently created the genetic disorder that most Sova possess after experimenting with himself.

Not knowing how to recreate the experiment again, Altair decided to transmit her modified genes. So he had children, thus founding the Sova Clan. Which would take the surname, Altair's birthplace. A small settlement in the south of the territory which was destroyed during an attack by a tribe.
